**TARIFF FORMAT**

- A. Page Numbering** - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would be 14.1.
- B. Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14. Because of the various suspension periods and deferrals the Commission follows in its tariff approval process, the most current page number on file with the Commission is not always the tariff page in effect. Consult the check page for the page currently in effect.
- C. Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2
  - 2.1
  - 2.1.1
  - 2.1.1.A
  - 2.1.1.A.1
  - 2.1.1.A.1.(a)
  - 2.1.1.A.1.(a).I
  - 2.1.1.A.1.(a).I.(i)
  - 2.1.1.A.1.(a).I.(i).(1)
- D. Check Sheets** - When a tariff filing is made with the Commission an updated check sheet accompanies the filing. The check sheet lists the pages contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There shall be no other symbols used on this page if these are the only changes made to it. The tariff user should refer to the latest check sheet to find out if a particular page is the most current on file with the Commission.

**SECTION 2 - REGULATIONS (Continued)**

**2.2 Limitations on Service (Continued)**

**2.2.3** Service provided under this tariff is directly controlled by Carrier, and Customer may not transfer or assign the use of Service, except with the prior written consent of Carrier. **2.8 Payment and Billing (Continued)**

**B. Credit Scoring**

Credit Scoring will be provided through the use of third party credit reporting service for new service requests. The credit rating will determine the need for a deposit and establish a credit limit for monthly charges and toll usage. The credit limit will be based initially on a credit score assigned by a commercial credit reporting service and will be adjusted periodically as a result of the Customer's payment history with the Company.

The Customer will be informed of his or her credit limits during the application process. The account credit limit will appear on the first bill and on all subsequent bills. In the billing cycle in which a Customer's credit limit is automatically changed, changes in credit limits will be conveyed by mailed notices to the Customer.

**C. Behavioral Scoring**

Behavioral Scoring will establish credit limits on existing Customers based on the Customer's payment history with the Company. Customers will be notified of their initial limit amount and subsequent credit limit changes through credit limit notices mailed to the billing address. A behavioral score will be established and maintained on each Customer when the program is initiated and/or after service has been established. The behavioral scoring will be updated periodically, based on billing and payment behavior during the preceding twelve months.

**D. Toll Blocking**

When a Customer exceeds the established credit limit, a notice will be mailed to the Customer's billing address five working days prior to blocking being implemented. Access to toll calls, inbound collect, calling cards, travel cards, and third number billed to the block number will be blocked where facilities are available. Where facilities are available, a recording will advise the Customer that blocking has been imposed when dialing or billing attempts are initiated.

Once the Customer has been blocked, the block will only be removed if the minimum amount due is paid. Eighty percent (80%) of the account credit limit amount plus any amount over the credit limit must be paid. A restoration charge is not applicable when the Customer's toll service is unblocked.

SECTION 2 - REGULATIONS (Continued)

2.9 Deposits

2.9.1 Each applicant for Service may be required to establish credit. Any applicant whose credit has not been duly established may be required to make a deposit to be held as a guarantee of payment of charges at the time of application. In addition, an existing Customer may be required to make a deposit or increase a deposit presently held. Carrier shall pay interest on deposits pursuant to applicable rules and regulations.

2.9.2 A deposit shall not exceed the estimated charges for two (2) month's Service plus installation, and shall be returned: (T)

- When an application for Service has been canceled prior to the establishment of Service. Such deposit shall be applied to any applicable charges, and the excess portion of the deposit shall be returned.
- At the end of six (6) consecutive months of a satisfactory credit history.
- Upon the discontinuance of Service. Carrier shall apply the Customer deposit against any outstanding balances due. If a credit balance exists, a refund shall be made to the Customer.

The fact that a deposit has been made in no way relieves Customer from complying with the regulations with respect to the prompt payment of bills on presentation.

**2.10 Taxes and Fees**

**2.10.1** Service may be subject to state and/or local taxes at the prevailing rates, if such service originates and terminates in the State of Kentucky. Such taxes are listed as separate line items on Customer's invoice, are not included in the rates and charges listed herein, and shall be paid by Customer in addition to the rates and charges stated in this tariff.

**2.10.2** To the extent that a municipality, other political subdivision or local agency of government, or Commission imposes upon and collects from Carrier a gross receipts tax, occupation tax, license tax, permit fee, franchise fee, or regulatory fee, such taxes and fees shall, insofar as practicable, be billed pro rata to Customers receiving Service within the territorial limits of such municipality, other political subdivision, or local agency of government.

**2.10.3 Pay Telephone Surcharge**

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all interstate, intrastate and international calls that originate from any domestic pay telephone used to access the Company's services, unless otherwise specified in this tariff. The Pay Telephone Surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with the Company's service, applies for the use of the instrument used to access the Company service and is unrelated to the Company's service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the "#" symbol).

**2.13 Inspection, Testing and Adjustment**

**2.13.1** Carrier may, upon reasonable notice, make such tests and inspections as may be necessary to determine whether tariff requirements are being complied with in the installation, operation, and maintenance of Customer's or Carrier's equipment. Carrier may, without notice, interrupt Service at any time, as necessary, because of a departure from any of these requirements and may continue such interruption until its requirements have been satisfied.

**2.13.2** Upon reasonable notice, the facilities provided by Carrier shall be made available to Carrier by Customer for such tests and adjustments as may be necessary for their maintenance to a condition satisfactory to Carrier.

**2.13.3** Carrier shall not be liable to Customer for any damages for Service interruption pursuant to this Section. Customer shall not be entitled to any credit for interruption of Service pursuant to this Section when the interruption of Service is less than two (2) consecutive hours.

**2.14 Interruption of Service**

**2.14.1** It shall be the obligation of Customer to notify Carrier of any interruption of Service. Before giving such notice, Customer shall ascertain that the trouble is not being caused by any action or omission of Customer or is not in wiring or equipment connected to the terminal of Carrier. Carrier liability for service interruption is limited according to the provisions of Section 2.3 hereof.

**2.14.2** When Service is interrupted for two (2) hours or more, credit is allowed on demand to Carrier, computed as set forth below, provided such interruption is not shown by Carrier to have been caused by the negligence or willful action of Customer, or any other person at the Customer's terminal location, or is not caused by the failure of Customer's equipment or power supply.

**2.14.3** Credit is computed by multiplying the monthly rate for Service by the ratio that the number of hours in the period of interruption bears to 720 hours. For the purpose of this computation, each month shall be considered to have seven hundred twenty (720) hours. The credit shall be based upon the non-usage charges for the month during which the interruption occurred, excluding equipment and access line charges.

**SECTION 3 - DESCRIPTION OF SERVICE AND RATES, (Cont'd.)**

**3.2 Calculation of Distance**

Usage charges for all mileage sensitive services are based on the airline distance between the rate center locations associated with the originating and terminating points of the call.

The distance between the originating and terminating points is calculated by using the "V" and "H" coordinates of the applicable rate centers as defined by Telecordia Technologies (formerly known as BellCore) and on file with the FCC in NECA Tariff FCC No. 4, in the following manner:

Step 1 - Obtain the "V" and "H" coordinates for the rate center of the originating and the destination points.

Step 2 - Obtain the difference between the "V" coordinates of each of the rate centers. Obtain the difference between the "H" coordinates.

Step 3 - Square the differences obtained in Step 2.

Step 4 - Add the squares of the "V" difference and "H" difference obtained in Step 3.

Step 5 - Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.

Step 6 - Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating rate centers of the call.

Formula:

$$\sqrt{\frac{(v_1 - v_2)^2 + (h_1 - h_2)^2}{10}}$$

**SECTION 3 - DESCRIPTION OF SERVICE AND RATES, (Cont'd.)**

**3.3 Timing of Calls**

Billing for calls placed over the network is based in part on the duration of the call.

- 3.3.1** Timing for all calls begins when the called party answers the call (i.e. when two way communications are established). Answer detection is based on standard industry answer detection methods, including hardware and software answer detection.
- 3.3.2** Chargeable time for all calls ends when either party disconnects from the call, except in cases where the switching facility is unable to detect called party disconnect. In such cases, the calling party controls the termination of the call.
- 3.3.3** Minimum call duration for billing purposes is one minute unless otherwise specified in the individual rate schedules of this tariff.
- 3.3.4** Calls are measured and billed in one minute increments on a per call basis, unless otherwise indicated in this tariff. Fractional billing increments are rounded to the full billing increment as stated in the product description.
- 3.3.5** No charges apply to incomplete calls. An incomplete call is a station call in which the called station does not answer, or a person to person call in which the station does not answer or the requested person is unavailable, or a collect call for which the called party refuses to accept the charges.
- 3.3.6** Usage charges are computed on a per call basis. When computation of call charges result in fractional cents, the resulting charge is rounded to the nearest penny.

SimpleOptions is an optional calling plan offered to Business Customers for outbound direct dialed calling from presubscribed switched or dedicated Access Lines at rates which are dependent on the Customer's monthly usage guarantee (MUG) level. Inbound (toll free) calling is also available for termination on switched or dedicated Access Lines. Travel Card and operator assisted calling are also available under this plan. Customers may select a one or three year term commitment in order to obtain lower rates.

**3.6.2 Billing Increments**

The billing increment and minimum call duration of each call is determined by the access method selected by the Customer and the call type. Partial increments are rounded to the next increment.

Access Type/Call Type	Initial Increment	Additional Increment
Switched Access	18 seconds	6 seconds
Dedicated Access	6 seconds	6 seconds
Travel Card	18 seconds	6 seconds
Operator Assisted	60 seconds	60 seconds

**3.6.3 Monthly Usage Guarantee**

All intrastate, interstate and international usage charges and applicable surcharges billed to the Customer under this plan contribute towards meeting the monthly usage guarantee. In addition, Conference Connections audioconferencing usage, Private Line and Data Services usage, feature charges, directory assistance charges, operator usage and surcharges, and monthly recurring charges are contributory to the monthly usage guarantee. Taxes, presubscribed line charges, carrier universal service charges, pay telephone use charges and other similar fees are not contributory. When the Customer's billing falls below the MUG in any full billing period, a shortfall charge will be applied which is equal to the difference between the Monthly Usage Guarantee and the actual contributory billing for that billing period.

2. When the Customer negotiates the term plan for a longer term;
3. When the Customer moves to a jurisdiction where the Company is prohibited from offering service;

When the Customer terminates service under this plan prior to the expiration of the Customer's selected term commitment, a termination charge will be assessed. The termination charge is calculated by multiplying 35 percent (35%) of the Customer's Monthly Usage Guarantee multiplied times the number of months remaining in the term.

Early termination charge will apply in all instances where the Flex Plan is terminated by the Customer, including:

- When the Customer disconnects its entire account;
- When the Customer selects a shorter term; or
- When the Customer negotiates a reduction in their monthly spending commitment more than one level during a billing cycle.

Early termination charge will not apply under the following circumstances:

- When the Customer's physical location changes, but the term plan is continued at the new location;
- When the Customer negotiates the term plan for a longer term;
- When the Customer moves to a jurisdiction where the Company is prohibited from offering service;
- When the Customer changes plan prior to 60 days of service;
- When the Customer returns to the Company as a result of a Winback program;
- When the Customer reduces their term monthly spend level one level during a billing cycle; or
- When the Customer moves from a one or three year term on Flex Distance Service to Unlimited Long Distance Service.

At the expiration of the term commitment, the Customer will continue at the same commitment and usage rate unless they notify the Company of a change to a different term commitment/minimum usage guarantee or to a different plan. If the Customer continues without notifying the Company of any changes, the Customer will remain liable for the MSL to which they were originally subscribed.

Inbound (toll free) calling is also available for termination on switched or dedicated Access Lines. Travel Card and operator assisted calling are also available under this plan. **6.2.2 Monthly Usage Guarantee**

All intrastate, interstate and international usage charges and applicable surcharges billed to the Customer under this plan contribute towards meeting the monthly usage guarantee. In addition, feature charges, directory assistance charges, operator usage and surcharges, and monthly recurring charges are contributory to the monthly usage guarantee. Taxes, presubscribed line charges, carrier universal service charges, pay telephone use charges and other similar fees are not contributory. When the Customer's billing falls below the MUG in any full billing period, a shortfall charge will be applied which is equal to the difference between the Monthly Usage Guarantee and the actual contributory billing for that billing period.
